vet point

Board of Directors:

- Roger Pfister, nowhow solutions ag
- Kaspar Rohner, veterinarian and Chairman of the Board of TVS
- Stefan Schellenberg, veterinarian and member of the Board of Directors of TVS
- Gregor Taeschler, Managing Director of TVS and Vetpoint

VETDATA

* have realised the IT solutions TVS and Vetpoint

What is the VETdata product about?

- Data platform for the **Swiss veterinary profession**
- Data exchange platform with **interfaces for** and between
 - **Industrial company**
 - Veterinary profession
 - **TVS / Vetpoint**
 - Practice software provider / accounting software / laboratory etc.
- Central **information platform** for the veterinary profession "**my-VETdata**"
- Central **backup and archiving solution** that meets the legal requirements of the Business Records Ordinance and the Data Protection Act
- **Swiss** solution
- **Other functions** in further phases

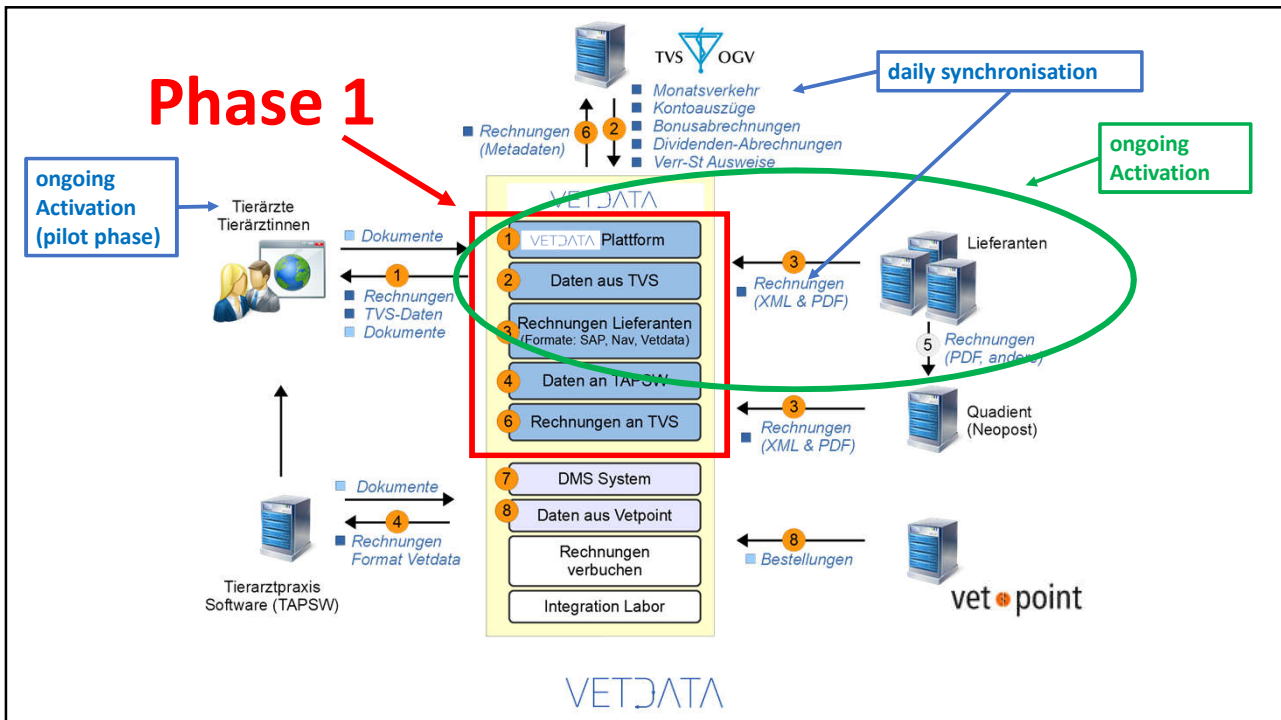

VETDATA

Data protection

- Compliance with current **Swiss data protection regulations**
- Supervision by a **specialised lawyer**
- Ensure the previous very **strict confidentiality of** data handling towards third parties (incl. veterinary profession and industry).
- **Data processing agreement** between TVS and VETdata
- Swiss software
- Data centre in Switzerland

VETDATA

Schedule Phase 1

Appointment	Status	Sub-step
June 2020	✓	Detail specification for supplier interface incl. WSDL
June 2020	✓	my-VETdata application ready for testing
July - December 2020	✓	Testing of the supplier interface and application my-VETdata
January 2021	✓	Productive operation with pilot customers
June 2021	✓	Expansion of productive operation
June 2021 until December 2022	open	Ongoing conversion of the data delivery of all suppliers to the new system
November - December 2022	open	Productive operation for all TVS customers
December 2022	open	All suppliers with corresponding data delivery

Information on new interface

As a supplier, you have two options for submitting your data to VetData:

1. **Implement the** interface offered by VetData **directly**. I.e. a **web service is** called with the invoice content as **XML** or **IDoc**.
2. The invoices are transmitted as a **PDF** to a **third-party provider**. This provider **turns** them **into the required XML**.

VETDATA

Information on new interface

	VETdata interface	Interface via quadiant
Interface type	Specific interface to VETdata directly	Interface via third-party quadiant to VETdata
Interface format	Standard VETdata or IDoc	quadiant connection
Implementation	One-off programming Interface implemented by supplier	Coordination with quadiant - one-time parameterisation Special Printer Driver Setup
Programming effort	own one-off programming costs	no own programming costs
Situation TVS Reimbursement	Higher annual TVS reimbursement (+10% - 20%)	Higher annual TVS reimbursement (+10% - 20%)
Level TVS Factoring Fee	lowest level currently 1.35%	Medium level expected 1.6% (incl. costs quadiant)
Contribution to VETdata	borne by TVS for the time being	borne by TVS for the time being
Further information	www.vetdata.ch/lieferantenlogin/	www.vetdata.ch/lieferantenlogin/

VETDATA

Status conversion new interface

Company	Status	Appointment
Arovet AG	✓	from May 2021
Boehringer Ingelheim	✓	from June 2021
Royal Canin Switzerland Ltd	✓	from October 2021
Virbac Ltd	✓	from November 2021
Covetrus AG	Project phase	Internal project underway
MSD Animal Health GmbH	Project phase	Internal project underway
Various suppliers	ongoing	Implementation initialised as a project and partly well advanced
Various suppliers	ongoing	Interface "light" with quadient initiated

Supplier invoices

The screenshot shows the 'Lieferantenrechnungen' (Supplier Invoices) page in the VETDATA system. The page title is 'Lieferantenrechnungen' and it includes a navigation menu on the left with options like 'TVS Konto', 'Lieferantenrechnungen', 'Dokumentarchiv', 'Dokument-Upload', 'Einstellungen und Benutzer', and 'Teilnehmerkontext wechseln'. The main content area shows a filter for 'Zeitraum: letzte 60 Tage' and a list of 3 items. The table below shows the details of these invoices.

Datum ↓	Lieferanten Name	Rechnungsnummer	Betrag	Beleg (PDF)
07.07.2021	Boehringer Ingelheim	9039279655	-872.45	↓
07.07.2021	Boehringer Ingelheim	9039279654	-854.00	↓
30.06.2021	Arovet AG	3800171847	-343.15	↓

Search for details in invoices

The screenshot shows the 'Lieferantenrechnungen' page with a search filter applied. The search term 'Bovi' is entered in the search bar, and the results show 2 items. The first item is expanded to show a detailed view of the invoice item, including the product number, product name, quantity, unit, unit price, and total amount.

Advantages for suppliers

- Increased degree of automation
- Savings potential for **sending invoices** (CHF 1-2 per invoice - automatic mail info from VETdata to vet possible when invoice is delivered)
- **Factoring fee** concession (contribution to initial costs of interface set-up - 10% - 20% higher rebate).
- Elimination of **queries** for invoice copies (reference to VETdata)
- Direct **link** from electronic invoice to **Vetpoint** via Vetpoint article number
- **Archiving** the invoices
- Statistics / **market data** made possible by VETdata

VETDATA

Advantages for the veterinary profession

- **Online access to** TVS account (current status can be viewed at any time)
- Access to **invoices** (ongoing increasingly depending on the number of participating suppliers)
- Use of **electronic receipts** for practice software, accounting
- **Archiving** takes place automatically and in compliance with the law
- **Release options** (controls, trustees, etc.)
- **Free of charge** for TVS customers (with data maximum)
(otherwise monthly CHF 20.00 in basic version)
